TERMS

- 1 CASH with order or C.O.D. unless credit has been established. Remittance of 25% must accompany C.O.D. orders.
- 2 A 25% deposit is required on stock that is to be reserved for later delivery.
- 3 All orders for future delivery are accepted subject to our merchandise being salable material at the time it is wanted and our ability to deliver at that time. We are not responsible for crop failures or other factors beyond our control, which may keep us from making deliveries. Upon our knowledge of such, all orders and deposits we have received will be returned promptly.
- 4 250 PLANTS of any one size and variety are sold at the thousand rate in cases where same is quoted. We guarantee our merchandise to be true to name and we ship only first quality stock at all times.
- 5 All prices are F.O.B. Apopka, Fla. We make no charge for packing. A 10% to 15% discount is allowed on pick-ups at the nursery when plants are not crated.

Azaleas

ROOTED CUTTINGS . . .

ready for delivery August 1st through October. Our Azalea Cuttings are propagated in a medium that runs heavy to peat and this gives them a thrifty and vigorous root system. No cuttings are sent out without a good bunch of roots.

LINING-OUT STOCK . . .

ready for delivery practically the entire year. Best suggested for spring delivery—February through June. Our Azalea Liners are grown in specially prepared beds of shredded peat and they are never allowed to slow down or become hardened. They have a good lot of very-much-alive healthy roots that hold a quantity of our fibrous peat; not only is this very helpful to them in shipment but it gets them off to a quick start after you get them.

DORMANT, BUDDED STOCK FOR FORCING . . .

October and November delivery. Our Azaleas, being southern-grown, are not quite so compact as those grown in the north but they have a good bud-count and are very attractive. All of these are grown in mixtures that run heavy to peat and many are grown on our peat farm. This assures you that they will have a good root system and will carry well in shipment.

W. T. CHAMPNEYS & SON

Azaleas

ROOTED CUTTINGS . . .

Not sold in lots of less than 100 of any one variety.

KURUME VARIETIES . . .

W. T. CHAMPNEYS & SON

Individual Beds of **CORAL BELL and HINODEGIRI**

We call your attention to the space that has been given to allow these Azaleas to grow into well developed plants for those who prefer our budded stock in the Fall.

TRANSPLANTED CUTTINGS

These have just been brought from our propagating house and lined out 4 inches apart in beds of solid peat. They are grown on for several months (usually 8 to 10 months) to develop into the three grades of Liners that we offer for Spring and mid-Summer delivery.

A SMALL SECTION OF OUR 5-ACRE LATH-HOUSE

This Lath-house is Devoted Entirely to Azaleas . . .

W. T. Champneys & Son

"Quality Plants"

APOPKA, FLORIDA

These are grown in raised beds filled with 5.2 peat that is dug by dragline from our own peat bog. This type of growing allows perfect drainage, which is so necessary to the growth and development of good Azaleas.

INDICA AZALEAS

Growing in Full Sunlight on our Peat Farm

Note the wide rows and the proper spacing of plants in the row—these factors, combined with the benefits of full-sun growing, produce the compact and bushy type of plants as shown here. Our peat acreage has a pH reading of 5.2, and varies in depth from 8 to 15 feet.

TOP ROW—

Azaleas Madam Pericat, Hinodegiri, Coral Bell

LOWER ROW—INDICA AZALEAS:

12" to 16" Duc de Rohan, 18" to 24" Formosa,
10" to 12" Fielders White

Note the heavy root system of these peat-grown plants. It is not necessary to burlap these for the roots hold a mass of fibrous peat, even when shipped long distances by truck or trailer, which means a saving to you.

Azaleas

For **LANDSCAPE WORK** *in the* **SOUTH**

**We recommend Southern-grown,
large-flowering Indica Azaleas.**

*W*E have a nice block of plants, in both Kurume and Indica types, which will be showy and good landscape material for our patrons in the southern states. These are being grown on our peat farm and we believe the bud-count will make them outstanding. We are not equipped to crate these but we can send them out in truck or trailer loads and this means of transportation is available locally. We allow a 10% to 15% discount when plants are picked up at the nursery and do not have to be crated.

Prices of Indica Azaleas, F. O. B. our nursery, B. & B. but uncrated—

10" to 12"	@	\$ 60.00	per 100
12" to 16"	@	\$ 80.00	per 100
18" to 24"	@	\$125.00	per 100
24" to 36"	@	\$225.00	per 100

(Net, in lots of less than 25)

*V*ISIT our nursery and select the plants you want. Our prices, as well as our merchandise, will be attractive. Our homes and nurseries are located at Apopka, 12 miles northwest of Orlando, on Highway 441. Fast 'plane or train service to Orlando and we will gladly meet you at the Airport or Railroad Station—just phone us.

Our Telephone, APOPKA 2411
